EDUCATION

M.A.

Sep 2018 – May 2020

Academy of Art University
Interaction design

Product designer with 7+ years of experience designing AI-powered products, complex workflows, and 0→1 platforms. Passionate about making complex products feel simple.

EXPERIENCES

Intuit – Sr. Product Designer

Mar 2022 – Present

- Defined the AI + human service model across QuickBooks, embedding expert guidance into core product workflows and shaping a new \$32M growth direction
- Led end-to-end design for QuickBooks Live Priority, reaching 2.6M customers with 78% early activation and 85% 31-day retention
- Designed expert-facing products and operational workflows that improved efficiency while increasing expert sentiment by +12% and NPS by +3.5
- Led strategy and design for a 0→1 Business Formation product, simplifying complex entity selection, registration, and compliance workflows into a guided experience projected to generate \$19M+ in FY26
- Used AI coding tools like Claude Code to accelerate design, collaboration, and delivery—building functional prototypes, refining UI directly in code, and contributing production changes through PRs reviewed by engineering

Lytx – Product Designer

May 2021 – Mar 2022

- Led design for complex, data-rich fleet safety workflows serving 5.5M+ drivers, helping fleet managers quickly identify risks and take action
- Designed cross-platform experiences that brought together AI insights, video evidence, and operational data into intuitive workflows for safety management
- Reduced workflow complexity by up to 30% through information architecture, interaction design, and task simplification

Offerland.ai – Design Lead

Feb 2021 – Apr 2024 · Side project

- Led product design for an AI-powered career platform used by 40K+ users across web and browser extension, including job tracking, AI resume writing, interview coaching, and referral discovery
- Designed AI-assisted decision-making workflows that helped users evaluate offers and navigate high-stakes career decisions with greater confidence
- Managed and mentored 3 designers while setting design and product direction

Naked and Thriving – UX Designer

Jul 2020 – May 2021

Audi – UX Designer

Feb 2020 – Jun 2020 · Sponsored project
